1.1 Profile of a typical investor

Investment in the Sub-Fund is suitable for investors seeking capital growth over the long term.

The Sub-Fund is available to a wide range of investors seeking access to a portfolio managed in accordance with the investment objective and policy set out below. An investment should only be made by those persons who are able to sustain a loss on their investment. Typical investors in the Sub-Fund are expected to be investors who want to take exposure to the markets covered by the Index and are prepared to accept the risks associated with an investment of this type, including the volatility of such market.

1.2 General

This Supplement sets out information in relation to the Shares and the Sub-Fund. You must also refer to the Prospectus which is separate to this document and describes the ICAV and provides general information about offers of shares in the ICAV. You should not take any action in respect of the Shares unless you have received a copy of the Prospectus. Should there be any inconsistency between the contents of the Prospectus and this Supplement, the contents of this Supplement will, to the extent of any such inconsistency, prevail. This Supplement and the Prospectus should both be carefully read in their entirety before any investment decision with respect to Shares is made.

The Shares in the ETF Share Classes (as defined below) of the Sub-Fund issued and available for issue will be admitted to listing on the Official List as maintained by Euronext Dublin and traded on the regulated market of Euronext Dublin.

The UK Marketing Agent has appointed DZ BANK Deutsche Zentral-Genossenschaftsbank, Frankfurt am Main (**DZ BANK**) as the sole sub-distributor to the Sub-Fund (the **Sub-Distributor**) to promote and market the shares of the Sub-Fund by making the Sub-Fund available to the cooperative banks in the Volksbanken Raiffeisenbanken Cooperative Financial Network. DZ BANK is a German credit institution, authorised by the Federal Financial Supervisory Authority (BaFin) in Germany. It acts as the central institution for approximately 700 German cooperative banks within the cooperative financial sector. The term “DZ BANK” has been included in the name of the Sub-Fund to reflect the involvement of the Sub-Distributor.

1.3 Suitability of Investment

See the section entitled Risk Factors of the Prospectus and the section entitled **Risk Factors** of this Supplement for a discussion of certain risks that should be considered by investors.

An investment in the Shares is only suitable for you if you are (either alone or with the help of an appropriate financial or other advisor) able to assess the merits and risks of such an investment and have sufficient resources to be able to bear any losses that may result from such an investment. The contents of this document are not intended to contain and should not be regarded as containing advice relating to legal, taxation, investment or any other matters.

1.4 Distribution of this Supplement and Selling Restrictions

The distribution of this Supplement and the offering or purchase of the Shares may be restricted in certain jurisdictions. If you receive a copy of this Supplement and/or the Prospectus you may not treat such document(s) as constituting an offer, invitation or solicitation to you to subscribe for any Shares unless, in the relevant jurisdiction, such an offer, invitation or solicitation could lawfully be made to you without compliance with any registration or other legal requirement other than those with which the ICAV has already complied. If you wish to apply for the opportunity to purchase any Shares it is your duty to inform yourself of, and to observe, all applicable laws and regulations of any relevant jurisdiction. In particular, you should inform yourself as to the legal requirements of so applying, and any applicable exchange control regulations and taxes in the countries of your respective citizenship, residence or domicile.

2 INVESTMENT MANAGER

The Manager has appointed Vident Advisory, LLC, with registered office at 1125 Sanctuary Parkway, Suite 515, Alpharetta, GA 30009 as investment manager for the Sub-Fund (the **Investment Manager**) with a discretionary mandate pursuant to the investment management agreement dated 14 July 2023, as amended between the Manager and the Investment Manager (the **Investment Management Agreement**) described under the heading Material Contracts below.

Under the terms of the Investment Management Agreement, the Investment Manager provides, subject to the overall supervision and control of the Manager, investment management services to the Manager in respect of the Sub-Fund's portfolio of assets. It may delegate all or part of the investment management responsibilities to one or more sub-investment managers and may obtain the services of investment advisers on a non-discretionary basis in accordance with the requirements of the Central Bank. It may also obtain third party research advice with the fees in respect of any such delegation being paid by the Investment Manager out of its own fee.

3 INVESTMENT OBJECTIVE AND POLICIES

3.1 Investment objective

The investment objective of the Sub-Fund is to track the price and the performance, before fees and expenses, of an index that provides exposure to a portfolio of fifty of the largest companies in the Eurozone.

3.2 Investment policy

In order to seek to achieve its investment objective, the Sub-Fund will adopt a "passive management" investment strategy and will seek to employ a tracking methodology, meaning as far as possible and practicable, it will invest in the equity securities of companies in proportion to the weightings comprising the EURO STOXX 50 Index (SX5T) (the **Index**).

Further details in relation to the Index are set out in the section entitled **Information on the Index** below.

The Sub-Fund may, from time to time, use a sampling methodology under various circumstances, including when it may not be possible or practicable to purchase all of the securities in the Index, for example, due to lot size issues or local market restrictions which may apply in certain markets.

The Investment Manager will regularly monitor the Sub-Fund's tracking accuracy. Information relating to the anticipated Tracking Error is set out in the section entitled **Tracking of Index** below.

The Sub-Fund may invest in ancillary liquid assets, money market funds and money market instruments which may include bank deposits, certificates of deposit, commercial paper, floating rate notes and freely transferable promissory notes.

The Sub-Fund may invest in ETFs established as collective investment schemes and authorised as UCITS in pursuit of its investment objective, subject to the investment restrictions outlined in the Prospectus.

The equity securities, ancillary liquid assets, money market instruments and FDI (other than permitted unlisted investments) held by the Sub-Fund will be listed or traded on the Regulated Markets referred to in Appendix 1 of the Prospectus.

3.3 EU Taxonomy

The investments underlying this Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

3.4 Sustainability Risks

For the purposes of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (**SFDR**) the Sub-Fund is not deemed (i) a fund that promotes environmental or social characteristics; (ii) a fund that has sustainable investment as its objective; or (iii) a fund with reduction in carbon emissions as its objective. As such, the Sub-Fund discloses under Article 6 of the SFDR and does not disclose under Articles 8 or 9 of the SFDR. Article 6 of the SFDR requires the disclosure of the manner in which sustainability risks are integrated into the investment decisions of the Investment Manager with respect to the Sub-Fund and the results of the assessment of the likely impacts of sustainability risks on the returns of the Sub-Fund.

A sustainability risk in the context of the Sub-Fund is an environmental, social or governance (**ESG**) event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment. Further details on sustainability risks and the impacts of them on the returns of the Sub-Fund are set out in the section of the Prospectus entitled Risk Factors.

The Sub-Fund is passively managed and holds securities included in the Index which it tracks namely, the EURO STOXX 50 Index (SX5T) which provides exposure to a portfolio of fifty of the largest companies listed on stock exchanges in the Eurozone. The Index is required to represent an adequate benchmark for the market to which it refers. The Index is created by the Index Provider. As the strategy of the Sub-Fund is to track the Index, changes to the portfolio of the Sub-Fund are driven by changes to the Index in accordance with the published methodology rather than by an active selection of securities by the Investment Manager. Accordingly, the Investment Manager does not exercise discretion to actively select or deselect securities as part of the investment process. The Investment Manager does not therefore integrate sustainability risks in the investment process. Even where the Sub-Fund uses an optimisation strategy or representative sampling technique to track the Index, sustainability risks may not be incorporated into the optimisation strategy or representative sampling technique as the Sub-Fund's investment objective is to track the performance of the Index and decisions driven by sustainability risks could impact the ability to achieve that objective.

3.5 Use of financial derivative instruments and efficient portfolio management

Investors should note that the Sub-Fund may invest in FDIs for investment, efficient portfolio management and/or hedging purposes. The Sub-Fund may use futures, currency swaps and currency forwards for the purpose of reducing risk associated with currency exposures within the Sub-Fund. This may on occasions

lead to an increase in the risk profile of the Sub-Fund or result in a fluctuation in the expected level of volatility. Please see the section entitled **Risk Factors** in the Prospectus in relation to such risks.

The Sub-Fund will employ the commitment approach to assess the Sub-Fund's global exposure and to ensure that the Sub-Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Sub-Fund may be leveraged through the use of the FDIs, any such leverage would not be expected to be in excess of 100% of the Sub-Fund's Net Asset Value. Including FDI's, the total exposure associated with the investments of the Sub-Fund, may not exceed 200% of the Net Asset Value of the Sub-Fund.

Investment in FDIs is subject to the conditions and limits contained in the Central Bank UCITS Regulations issued by the Central Bank. Subject to these limits, the Sub-Fund may invest in FDIs dealt on any of the regulated markets set out in the list of Regulated Markets in Appendix 1 to the Prospectus (and/or over the counter FDIs (OTCs).

The ICAV employs a risk management process which enables it to accurately measure, monitor and manage at any time the various risks associated with FDIs and their contribution to the overall risk profile of the portfolio of assets of the Sub-Fund. The ICAV will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments. The Sub-Fund will only invest in FDIs in accordance with the risk management process filed with the Central Bank.

The Sub-Fund may invest in FDIs dealt over the counter provided that the counterparties to over-the-counter transactions are institutions subject to prudential supervision and belong to categories approved by the Central Bank.

Position exposure to the underlying assets of FDIs, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the Central Bank UCITS Regulations.

Please see the section entitled **Use of Financial Derivative Instruments and Efficient Portfolio Management** in the Prospectus in relation to FDI.

3.6 Securities financing transactions

While the ICAV may enter into Securities Financing Transactions, it is not anticipated that the Sub-Fund will enter into any Securities Financing Transactions. However, in the event that the Sub-Fund contemplates entering into such transactions, investors will be provided with further details of the structure and use of such transactions, together with any other information required to be disclosed to investors in accordance with Articles 13 and 14 of the SFTR. The Supplement will be updated accordingly in the event that the Sub-Fund will enter into any Securities Financing Transactions.

4 PORTFOLIO TRANSPARENCY

Information about the Investments of the Sub-Fund shall be made available on a daily basis. The Sub-Fund will disclose on www.HANetf.com at the start of each Business Day the identities and quantities of the securities and other assets held by it.

Further information on the anticipated Tracking Error is set out in the section entitled **Tracking of Index** in the Prospectus.

6 INFORMATION ON THE INDEX

In case of inconsistency between the summary of the Index in this section and the complete description of the Index, the complete description of the Index prevails.
