ET32 | DE000A3G90G9

Bitwise Ethereum Staking ETP

Reasons to Invest

100% physical backing

Units of ET32 are 100% physically backed by Ethereum (ETH) held securely in cold storage. The private keys never leave custody even during staking.

100% transparent total return

Holders of ET32 receive all staking rewards, which are added to the Crypto Entitlement (ETH amount per ETP unit) at the end of each trading day, net of a small 10% Staking Service Fee.

Liquidity

Investors in ET32 enjoy daily liquidity on the stock exchange and are not limited by lock-up periods or other technical challenges of crypto staking.

Product Objectives

Bitwise Ethereum Staking ETP (ET32) offers investors exposure to the performance of ETH, while capturing staking rewards. ET32 is an institutional-grade, low cost, and liquid vehicle to leverage ETH staking. The ETP is 100% physically backed by ETH. ET32 is specially designed to prioritise investor outcomes. It is the first truly cost-effective, liquid and transparent staking ETP tracking a staking index. Anchored by a real benchmark, investors can accurately evaluate Ethereum staking opportunities, and clearly assess performance. ET32 is issued by Bitwise and distributed by HANetf.

Key Risks

Investors' capital is at risk and investors may not get back the amount originally invested and should obtain independent advice before making a decision. Any decision to invest should be based on the information contained in the relevant prospectus. ETP securities are structured as debt securities, not as equity. ETPs trade on exchanges like securities. They are bought/sold at market prices which may be different to the net asset value of the ETP.

Source: HANetf, data as of 31.12.2025. Please note that all performance figures are showing net data. The underlying benchmark is "Ethereum Staking", performance is in USD. Past performance is not an indicator for future results and should not be the sole factor of consideration when selecting a product. Investors should read the prospectus of the Issuer (“Prospectus”) before investing and should refer to the section of the Prospectus entitled "Risk Factors" for further details of risks associated with an investment in this product. When you invest in ETCs your capital is at risk.

Partner

Bitwise®

Bitwise is one of the world's leading crypto specialist asset managers. Thousands of financial advisors, family offices, and institutional investors across the globe have partnered with Bitwise to understand and access the opportunities in crypto. Since 2017, Bitwise has established a track record of excellence managing a broad suite of index and active solutions across ETPs, separately managed accounts, private funds, and hedge fund strategies—spanning both the U.S. and Europe. In Europe, for the past four years, Bitwise (previously ETC Group) has developed an extensive and innovative suite of crypto ETPs, including Europe's largest and most liquid bitcoin ETP. This family of crypto ETPs is domiciled in Germany and approved by BaFin. Bitwise exclusively partners with reputable entities from the traditional financial industry, ensuring that 100% of the assets are securely stored offline (cold storage) through regulated custodians. Bitwise's European products comprise a collection of carefully designed financial instruments that seamlessly integrate into any professional portfolio, providing comprehensive exposure to crypto as an asset class. Access is straightforward via major European stock exchanges, with primary listings on Xetra, the most liquid exchange for ETF trading in Europe. Retail investors can benefit from easy access through numerous DIY/online brokers, coupled with Bitwise's robust and secure physical ETP structure, which includes a redemption feature.

About HANetf

HANetf is an independent exchange traded product (ETP) provider, working with asset management companies to bring differentiated, modern, and innovative exposures to European investors. Via our white-label platform, we provide a complete operational, regulatory, distribution and marketing solution for asset managers around the globe to launch and manage UCITS ETFs and ETCs.

IMPORTANT INFORMATION This factsheet is approved for professional use only.

Communications issued in the European Economic Area ("EEA")

The content in this document is issued and approved by HANetf EU Limited ("HANetf EU"). HANetf EU is authorised and regulated by the Central Bank of Ireland. HANetf EU is registered in Ireland with registration number 728832.

Communications issued in the UK

The content in this document is issued by HANetf Limited ("HANetf") and approved by Privium Fund Management (UK) Limited ("Privium"). HANetf is an appointed representative of Privium, which is authorised and regulated by the Financial Conduct Authority. The registered office of Privium is The Shard, 24th Floor, 32 London Bridge Street, London, SE1 9SG

This communication has been prepared for professional investors, but the ETCs and ETFs set out in this communication ("Products") may be available in some jurisdictions to any investors. Please check with your broker or intermediary that the relevant Product is available in your jurisdiction and suitable for your investment profile.

Past performance is not a reliable indicator of future performance. The price of the Products may vary and they do not offer a fixed income. This document may contain forward looking statements including statements regarding our belief or current expectations with regards to the performance of certain assets classes. Forward looking statements are subject to certain risks, uncertainties and assumptions. There can be no assurance that such statements will be accurate and actual results could differ materially from those anticipated in such statements. Therefore, readers are cautioned not to place undue reliance on these forward-looking statements. The content of this document is for information purposes and for your internal use only, and does not constitute an investment advice, recommendation, investment research or an offer for sale nor a solicitation of an offer to buy any Product or make any investment.

An investment in an exchange traded product is dependent on the performance of the underlying asset class, less costs, but it is not expected to track that performance exactly. The Products involve numerous risks including among others, general market risks relating to underlying adverse price movements in an Index (for ETFs) or underlying asset class and currency, liquidity, operational, legal and regulatory risks. In addition, in relation to Cryptocurrency ETCs, these are highly volatile digital assets and performance is unpredictable.

The information contained on this document is not, and under no circumstances is to be construed as, an advertisement or any other step in furtherance of a public offering of securities in the United States or any province or territory thereof, where none of the Issuers (as defined below) or their Products are authorised or registered for distribution and where no prospectus of any of the Issuers has been filed with any securities commission or regulatory authority. No document or information on this document should be taken, transmitted or distributed (directly or indirectly) into the United States. None of the Issuers, nor any securities issued by it, have been or will be registered under the United States Securities Act of 1933 or the Investment Company Act of 1940 or qualified under any applicable state securities statutes.

The Issuers:
1. HANetf ICAV and HANetf ICAV II are open-ended Irish collective asset management vehicles and are the issuers of the ETFs under the terms in the relevant Prospectuses and relevant Supplements for each ETF approved by the Central Bank of Ireland ("CBI") (each an "ETF Prospectus" and together the "ETF Prospectuses"). Investors should read the current version of the relevant ETF Prospectus before investing and should refer to the section of the relevant ETF Prospectus entitled 'Risk Factors' for further details of risks associated with an investment in the ETFs. Any decision to invest should be based on the information contained in the ETF Prospectuses.

2. HANetf ETC Securities plc, a public limited company incorporated in Ireland, issuing under the terms in the Base Prospectus approved by the Central Bank of Ireland and the final terms of the relevant series ("ETC Securities Documentation") is the issuer of the precious metals ETCs. Investors should read the latest version of the ETC Securities Documentation before investing and should refer to the section of the Base Prospectus entitled 'Risk Factors' for further details of risks associated with an investment in the ETCs. Any decision to invest should be based on the information contained in the ETC Securities Documentation.

3. Bitwise Europe GmbH, a limited liability company incorporated under the laws of the Federal Republic of Germany, issuing under the terms in the Prospectus approved by the Bundesanstalt für Finanzdienstleistungsaufsicht ("BaFin") and the final terms ("Cryptocurrency Prospectus") is the issuer of the ETCM ETCs. Investors should read the latest version of the Cryptocurrency Prospectus before investing and should refer to the section of the Cryptocurrency Prospectus entitled 'Risk Factors' for further details of risks associated with an investment in the ETCs contained in the Cryptocurrency Prospectus. Any decision to invest should be based on the information contained in the Cryptocurrency Prospectus.

4.HANetf Multi-Asset ETC Issuer plc, a public company incorporated in Jersey, issuing under the terms in the Base Prospectuses approved by the Swedish Financial Supervisory Authority (Sw. Finansinspektionen) (the "SFSA"), the United Kingdom Financial Conduct Authority ("FCA") and the final terms of the relevant series ("Multi-Asset ETC Securities Documentation") is the issuer of ETCs linked to and secured by various underlying assets. Investors should read the latest version of the ETC Securities Documentation before investing and should refer to the section of the relevant Base Prospectus entitled 'Risk Factors' for further details of risks associated with an investment in the ETCs. Any decision to invest should be based on the information contained in the ETC Securities Documentation.

The relevant ETF Prospectuses, ETC Securities Documentation, Multi-Asset ETC Securities Documentation and Cryptocurrency Prospectus can all be downloaded from www.hanetf.com.
