Competent authority	The Company is incorporated in Ireland and the competent authority is the UK Financial Conduct Authority (the "FCA") in relation to this KID.
KID Production Date	31.05.2026

What is this product?

Type	The Royal Mint Responsibly Sourced Physical Gold CHF Hedged ETC Securities ("ETC"), is an exchange traded series of secured debt securities issued by HANetf ETC Securities plc (the "Company") that are physically backed by gold. The ETC is listed on the SIX Swiss Exchange, is structured as debt securities and is not units in a collective investment scheme.
Objectives and Policies	The ETC is designed to offer investors a cost-effective way to access the gold market as it tracks the spot price of physical gold and includes a CHF foreign exchange hedge to reduce the exposure of the exchange rate fluctuations between CHF and USD, the currency in which the underlying physical gold backing the ETC is usually traded. The ETC provides investment exposure to physical gold by the Company holding physical London Bullion Market Association (LBMA) gold with the Royal Mint. The ETC has a metal entitlement ("Metal Entitlement Per Security" ("MEPS"), which is the amount of physical gold backing the ETC) and its daily value is linked to the value of the MEPS. The daily Metal Entitlement can be found on www.HANetf.com. The ETC's base currency is CHF.
Term	The ETC does not have a fixed term of existence, or maturity period. However, the Company has the right to terminate the ETC in limited circumstances, as set out in the base prospectus.
Insurance benefits	The ETC does not offer any insurance benefits.
Intended retail investor	The ETC is intended for retail investors with the ability to bear losses up to the amount invested in the ETC. The ETC is appropriate for medium to long term investment, though the ETC may also be suitable for shorter term exposure (see further below "How long should I hold it and can I take money out early?").

What are the risks and what could I get in return?

Summary Risk Indicator

The risk indicator assumes you keep the ETC for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this ETC compared to other ETCs. It shows how likely it is that the ETC will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the ETC's capacity to pay you.

Be aware of currency risk. The currency of this ETC (and/or the trading line of your ETC) may be different from that of your country. As you may receive payments in a currency not that of your country, the final return will depend on the exchange rate.

The ETC does not include any protection from future market performance so you could lose some or all of your investment. Where the ETC holds an Underlying Asset ("UA") which is subject to a premium or discount (i.e. a difference between the UA's market price and the UA's NAV), the ETC's returns may be negatively impacted by any changes in such premium or discount.

What happens if HANetf ETC Securities plc is unable to pay out?

In case of a default by the Company, any claims made against the Company will be satisfied in order of the priority of payments set out in the conditions of the ETC and you may face a financial loss of some, or all of the amount invested. The ETC is not protected under any financial services compensation scheme.

What are the costs?

The party advising on or selling you this ETC may charge you other costs. If so, this party will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover one-off, ongoing and incidental costs. These amounts depend on how much you invest, how long you hold the ETC and how well the ETC performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return).
- For the other holding periods we have assumed the ETC performs as shown in the moderate scenario.
- CHF 10,000 is invested.

Investment CHF 10,000

Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	47 CHF	380 CHF
Annual cost impact	0.47%	0.47%

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0% of the amount you pay in when entering this investment*	0 CHF
Exit costs	0% of your investment before it is paid out to you*	0 CHF
Ongoing costs		
Management fees and other administrative or operating costs	0.35% of the value of your investment per year. This is an estimate based on actual costs over the last year.	35 CHF
Transaction costs	0.12% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the ETC. The actual amount will vary depending on how much we buy and sell.	12 CHF
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this ETC.	0 CHF

* Applicable to secondary market investors who will deal directly with a broker participant or via a stock exchange and will pay fees charged by their broker. Dealing spreads are publicly available on exchanges on which the shares are listed, or can be obtained from stock brokers. Please refer to your broker, financial adviser or distributor for the actual charges.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years.

You will be able to sell this product at any time; however, the amount you receive may be less than the amount you could expect to receive. By selling the ETC earlier than the recommended holding period, you may receive back more or less than you would have received if you had stayed invested until recommended holding period.

How can I complain?

Should you have any complaints about the ETC or the manufacturer, please send your complaints to in writing for the attention of the General Counsel by post or email (details set out below) and your complaints will be addressed with accordingly.
